

Joint venture companies

Job Title: Project Logistics Coordinator

Reporting to: Logistics Support Manager

Location: Kitimat

Duration: Fixed Term with benefits (24 months)

There's never been a better time to be working with LNG Canada.

Why? Because we're building Canada's first large-scale LNG facility underpinned by safety, continuous improvement, quality execution and ethics and compliance. Our industry-leading liquefied natural gas (LNG) export facility will provide the world's cleanest LNG, with the lowest carbon intensity.

This is your opportunity to be part of history, in an environment that will challenge you to apply all of your skills, and where you can learn with a diverse team of highly experienced industry professionals and mentors.

LNG Canada maintains a healthy, respectful, and safe environment for all our employees, contractors, partners, and communities. Protecting our people, community and our operations is our top priority. Our project has committed to meeting some of the strictest regulatory standards in the world.

With gratitude and respect LNG Canada acknowledges our facility is under construction and will be operated on the traditional territory of the Haisla Nation. We also gratefully acknowledge the First Nations in our project area and along our shipping route.

Our Vision: To be the leading LNG export company in British Columbia and the world.

Our Mission: To set the benchmark for economically, environmentally, and socially responsible LNG development in Canada.

Our Values: Respect, collaboration, integrity and safety.

Come join the team making Canadian history!

About the Role

To succeed with us in Supply Chain – Logistics, we need your well-rounded experience with project logistics coordination and special focus on Safety.

To be successful in this role you will require:

- Excellent communication (verbal and written) and interpersonal skills that **inspire and energize** people and create a clear sense of direction and priorities.
- Ability to **positively influence** people, effectively drive work processes and ensure compliance with Project & Company policies
- Ability to **drive execution** and stretch the performance of people with a wide range of capabilities
- **Comfortable with change** and ambiguity such that informed decisions are made without undue delay.
- **Courage** to hold strong to views when challenging current practices to encourage exploration of new ideas that drive continuous improvement, for example: Digitization & Reporting
- Demonstrate a strong personal commitment to Diversity and Inclusion through **collaboration** across functional and cultural boundaries
- **Develop the capabilities** of others through coaching, mentoring, and providing growth opportunities that help people build their learning mind set.

You will use your expertise to:

- Help shape ways of working through end-to-end optimization and risk management, with focus on Human Performance Based Safety Philosophy in relation to various modes of transport within the Logistics competency.
- Provide compelling performance feedback driving disciplined execution to deliver reliable, predictable results
- Help the businesses build Logistics improvement plans and provide support to the execute team

To be successful, you will have:

- Have a strong passion for transportation safety, with special focus on road safety.
- Experience with SPMT's (Self-Propelled Modular Transporters) / Module transportation is a critical requirement .
- Construction Project Phase experience with onsite transportation.
- Ability to drive data analytics to identify improvement opportunities.
- Strong communications, collaborative, networking, and stakeholder influencing skills.
- Knowledge of all transport related safety manuals and guides with technical road safety competencies.
- Ability to pull on other Subject Mater Experts to drive strong safety management plans.
- Familiar with Transport Canada and Work Safe B.C requirements as it relates to various modes of transport.
- Ability to carry out investigations, audits and assurance, champion the sharing of best practices.
- Comfortable with taking on additional Supply Chain tasks to help drive performance at site.

This role requires that you:

- **Must be legally entitled to work in Canada (i.e., by way of Canadian citizenship, permanent residency, or valid work permit)**
- Know that this role is based in Kitimat and that Temporary housing will be provided (incl family & pet friendly accommodation)
- LNG Canada Temporary Relocation policy will apply
- **Know that as part of LNG Canada's commitment to protect the health and safety of its personnel and the communities in which it operates, LNG Canada requires all Canada-based employees to be fully vaccinated against COVID-19. LNG Canada will consider accommodation requests from individuals in accordance with applicable human rights legislation.**
- Know that this is not a rotating Fly-in , Fly out role.
- This is direct hire role with benefits, (Not a Contractor role).
- Work 50hrs of work, not necessarily every Saturday and Sunday off, some rotating weekend work coordinated with site team.
- Role is approximately 24 months
- Are willing to comply with LNGC's drug-free and harassment-free work environment and comply with all safety policies and procedures.

- Undergo a pre-placement medical assessment of your fitness for duty, a background check and Pre-Site Access testing for alcohol and specified drugs.
- Be willing to work in all weather conditions, including heavy snowfall and periods of heavy rain when required.
- Have a Valid Driver's license

We offer

- A Comprehensive LNG Canada relocation package
- A full suite of benefits including a flexible Medical and Health plan
- A Defined Contribution Pension plan with a matching program
- A competitive vacation offering to ensure a work life balance

About Us

LNG Canada is a joint venture comprised of Shell Canada Energy (40%) and affiliates of Petronas (25%) PetroChina (15%), Mitsubishi Corporation (15%) and Korea Gas Corporation (5%). The joint venture is building a liquefied natural gas (LNG) export facility in Kitimat, British Columbia.

LNG Canada is committed to building an inclusive and diverse workplace and culture, a safe and sustainable facility, strong community and stakeholder relationships. We are a globally-competitive, digitally-connected business, from construction to start-up to steady-state. We have partnered with governments, local communities and First Nations to maximize shared value.
